

► Touchscreen Router Panel Technical Guide

COP28
UAE

■ Welcome to the COP 28 Media Centre

For your convenience, we have equipped your workspaces and cubicles with touchscreen router control panels, providing full access to all official Host Broadcast feeds:

Plenary 1
Plenary 2
Al Waha (ex WCAS)
Press Conference 1
Press Conference 2
Al Hur (ex Amphitheatre)
COP Creator Hub (ex COP TV)
Green Stage
Al Wasl Dome

Beauty Cam DEC
Beauty Cam GCA
Rundown for Blue Zone
Rundown for Green Zone
Replay 1 (Arrivals & Family Photo)
Replay 2 (Handshake & Walk)
Replay 3 (Pavillion Walk)

Colour Bars

■ Signal Standards & Audio Channels

The Host Broadcast standard is HD-SDI 1080i 50, and frame rate conversion to HD-SDI 1080i 59.97 can be selected on every router panel in cubicles and open plan workspaces.

Eight channels of audio will be embedded into the video signal.

Audio channels:

1. Floor
2. Floor
3. Arabic
4. Chinese
5. English
6. French
7. Russian
8. Spanish

Video & Audio Cable Drops

Video signals in TV workspaces will be available on a single feed.
Audio signals in radio workspaces will be available on two XLRs.

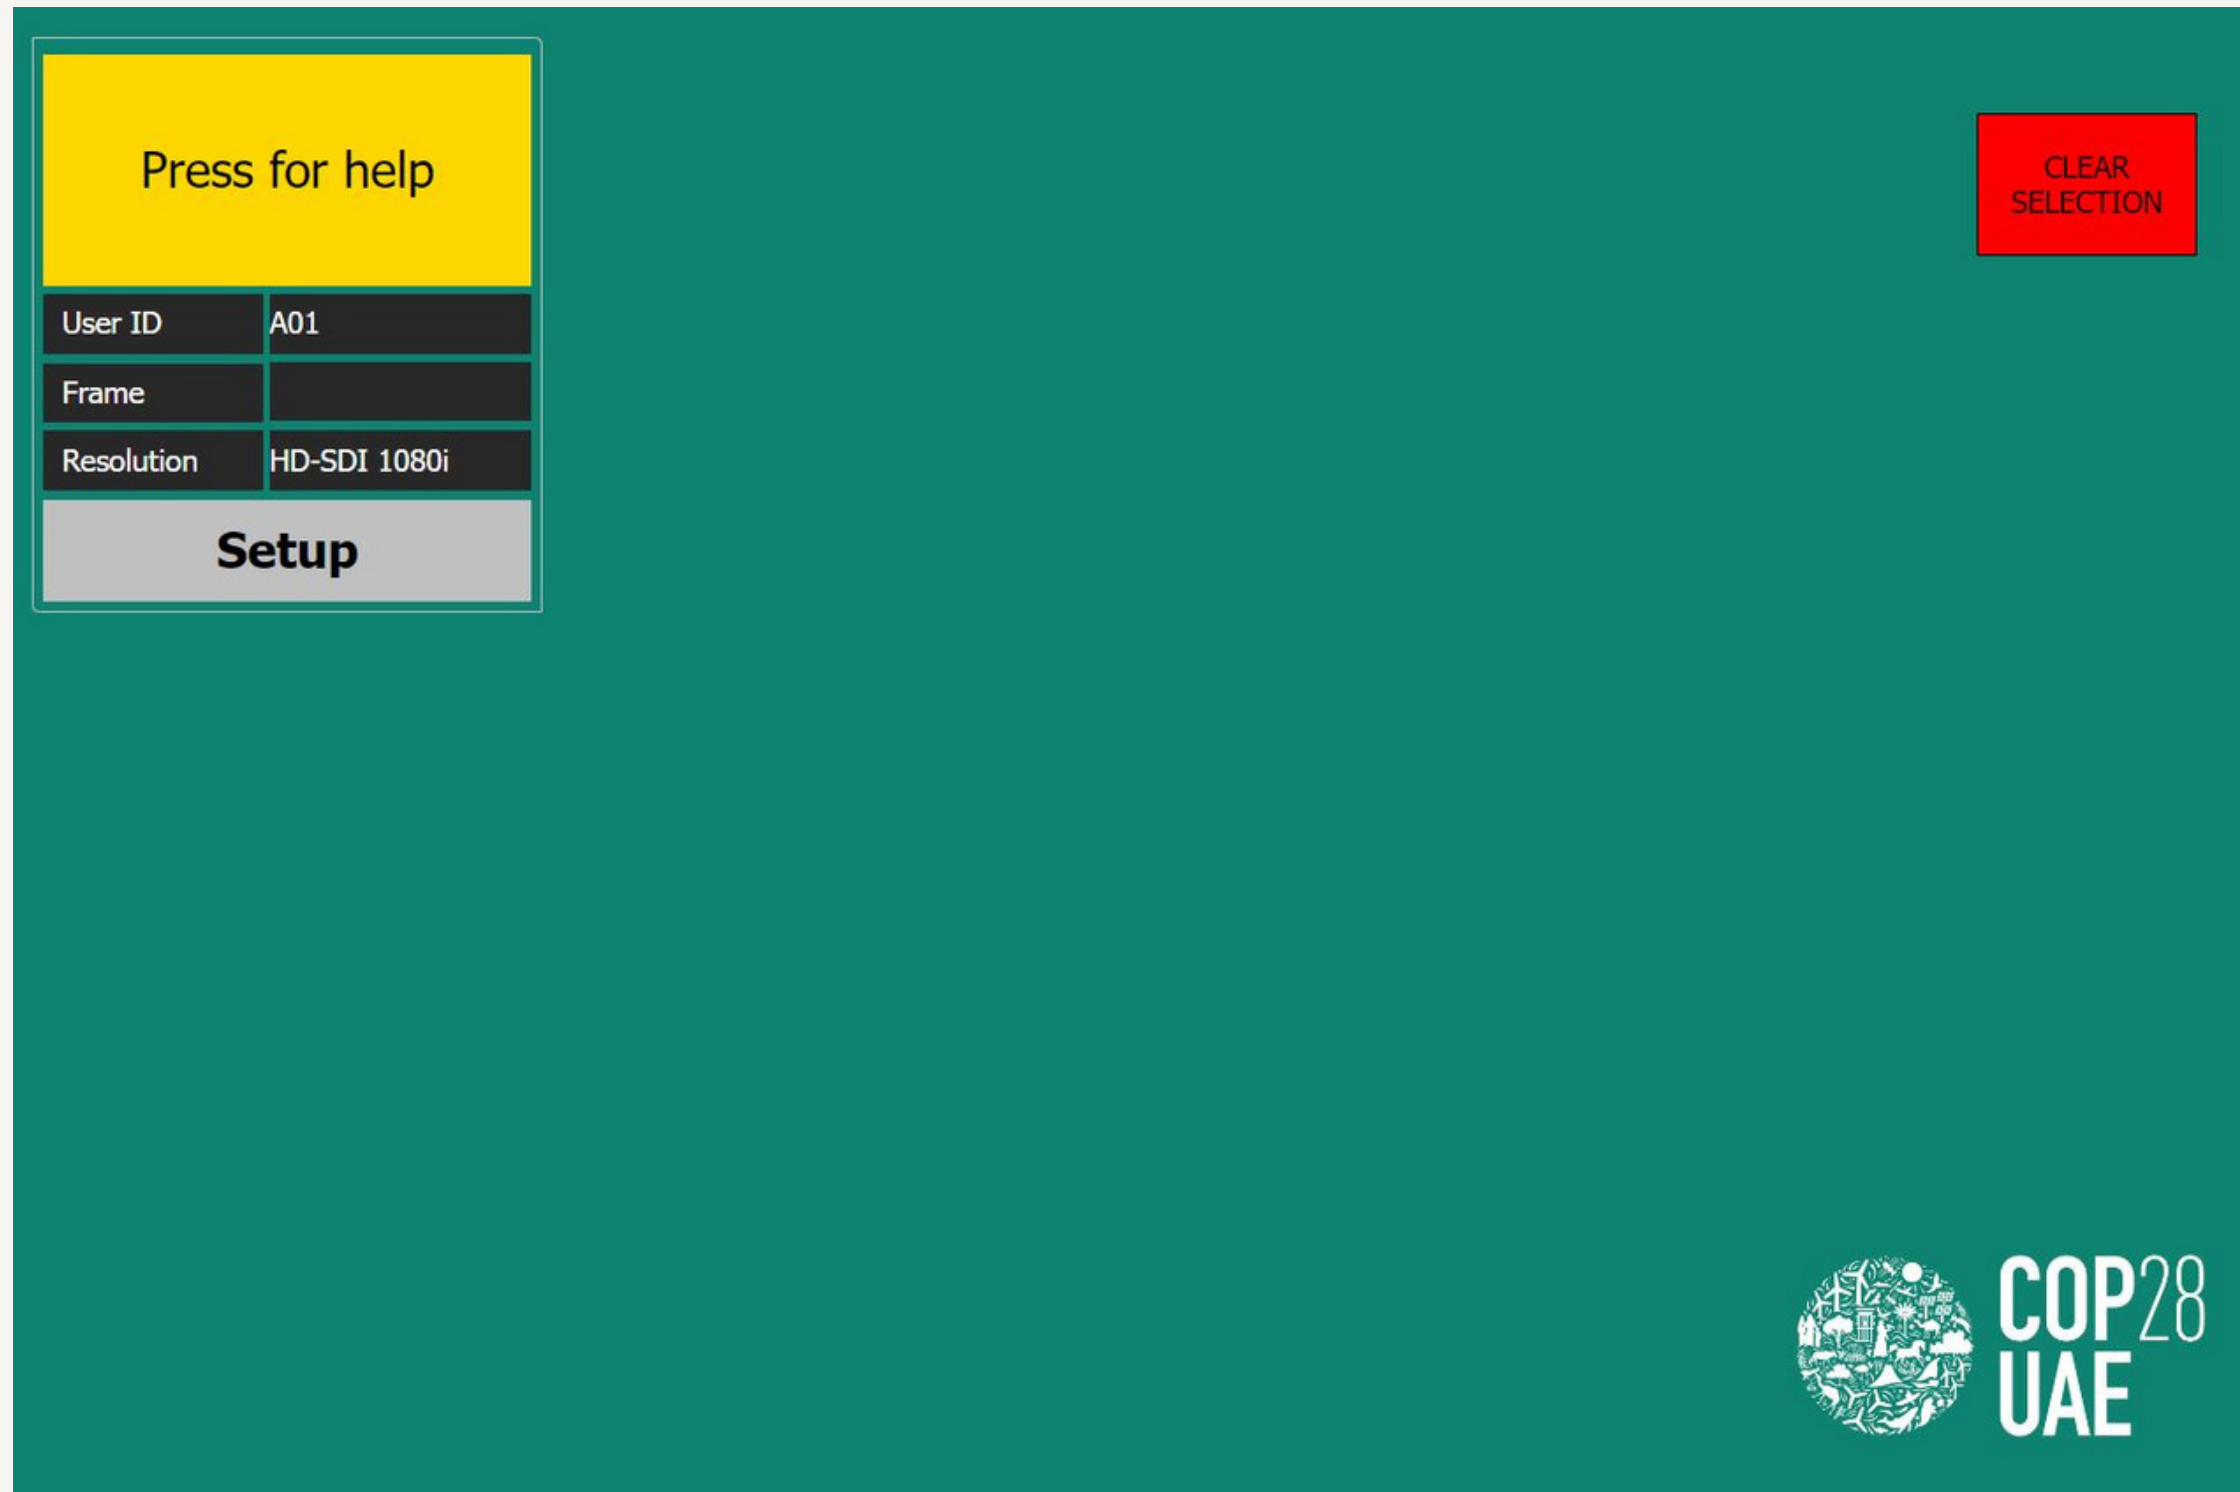

Video signals in TV cubicles will be available on 5 independent feeds.
Audio signals in radio cubicles will be available on 8-ch. breakout XLR.

Feed 1 = brown
Feed 2 = red
Feed 3 = orange
Feed 4 = yellow
Feed 5 = green

Getting Started

In your workspace or cubicle, the touch-screen will show the landing page with the user ID already set to your space or cubicle. Please press SETUP to continue.

Frame Rate
